

Nestled in the clean, cool forests of Nova Scotia's Cobequid Mountains, Breathing Green Solutions is the province's first licensed producer of cannabis products for your well-being. Powered by our proprietary PurePlant™ growing method, Breathing Green is committed to delivering the most pristine, reliable and trustworthy cannabis products to our patients and customers everywhere.

Breathing Green Solutions is also growing its team and is currently looking to add a **Quality Control Analyst** to our team located in Truro/Wentworth, NS.

### **Quality Control Analyst**

The Quality Control Analyst will ensure our product meets the highest quality standards and complies with all regulatory requirements. The incumbent will join a team of in house experts who advise senior management and production staff of issues and solutions to achieve quality excellence. Other specific responsibilities include:

- Conduct daily quality control activities associated with the manufacturing of a pharmaceutical product
- Develop and maintain records to document quality control activities
- Develop, write, review, revise and maintain Standard Operating Procedures (SOPs)
- Develop and provide training to staff
- Handling of product complaints and associated reporting requirements.
- Finished product and environmental sampling and interpreting analytical results.
- Conducting internal audits.
- Review and approve printed packaging components.
- Maintaining a good knowledge of all relevant government regulatory requirements related to the product

### **Experience:**

- Bachelor of Science with a concentration in Chemistry, Microbiology, Biochemistry or other relevant field of study
- Experience or knowledge in Good Manufacturing Practices, HACCP and Quality Control as it relates to the manufacture of foods or drugs.
- Experience and knowledge in Microbiology with ability to recognize conditions or practices that present a microbiological risk

- Experience and knowledge in Chemistry with ability to recognize conditions or practices that present a chemical risk
- Experience with computers and software including Microsoft Word and Excel.
- Experience writing Quality Assurance type documents, including Standard Operating Procedures (SOPs), Validation Protocols and Reports, including Process Validation, Cleaning Validation and Equipment Validation.
- Experience with the Quality Management System (QMS) approach, including Corrective and Preventative Action and Root Cause Analysis.
- Experience in investigation of product complaints and product recall procedures.
- Experience with Sanitation Programs, as they apply to food or drug manufacturing
- Strong analytical skills with the ability to clearly and effectively communicate findings and solutions.

We are an innovative, quality focused company dedicated to the health of its customers and its employees. Our nimble culture is built on trust, respect and transparent communication at all levels of the organization. Every employee is viewed as key to the success of the organization. As such, we offer a comprehensive compensation package including above market salary, vacation, benefits, RRSP matching plan and bonus plan.

To apply, please forward your resume with "Quality Control Analyst" in the subject line to [admin@uptreehr.ca](mailto:admin@uptreehr.ca). We appreciate your time and interest in our organization. As such, all applicants will be contacted either via email or phone.
